Code42, a leading data security company, secures the ideas of more than 50,000 organizations worldwide, including the most recognized brands in business and education. Because Code42 collects and indexes every version of every file, the company offers security, legal and IT teams total visibility and recovery of data—wherever it lives and moves. With real-time alerts and forensics, these teams can easily detect, investigate and rapidly recover from any data incident, such as ransomware, lost or stolen devices, and insider threats. Supported by a global state-of-the-art cloud infrastructure, the Code42 platform safeguards hundreds of petabytes of data and helps organizations comply with evolving regulatory requirements. Founded in 2001, the company is headquartered in Minneapolis, Minnesota, and backed by Accel Partners, JMI Equity, NEA and Split Rock Partners.
